

Napersoft zCCM Merge 5.2 for Interactive Document Creation

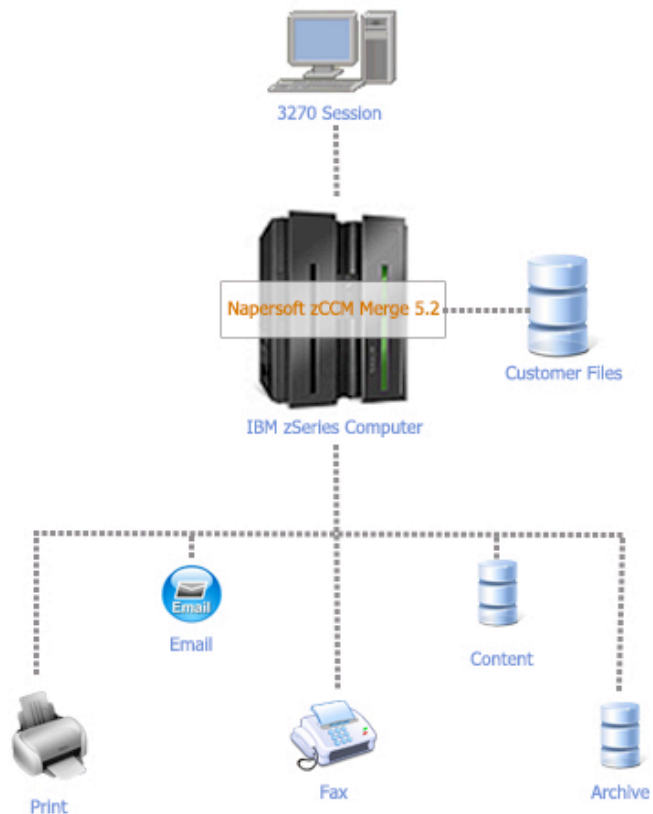

Key Benefits

- Streamlines work processes when creating on-line, interactive customer communications
- Provides access to data across your organization
- Automatically inserts personalized customer data into forms
- Ensures personalized customer communications
- Upper/lower case conversion (including irregular capitalization)
- Automatic gendering
- Paragraph data insertion

Overview

Napersoft Merge 5.2 is a world class, real time, interactive and on demand customer communications management engine for the enterprise. It streamlines the retrieval of customer data from business applications, the assembly and personalization of content and the distribution of customer communications.

An on-line, menu-driven, full-function mail-merge and personalization software package that runs on your IBM® z/OS or plug-compatible zSeries mainframe computer, Napersoft Merge merges data (from any SAM, VSAM, or DBMS file) with Napersoft Word forms. You can create and distribute personalized documents, letters, statements, notices, envelopes and other business forms.

Napersoft zCCM Merge 5.2 for Interactive Document Creation

Functionality Overview

Napersoft zCCM Merge 5.2 allows the creation of user application screens for entering a wide variety of selection criteria.

zCCM products operate on IBM z/OS Versions 1.1 to 1.11 (and above) zSeries mainframe and plug-compatible computers. On-line products also require CICS Transaction Server for z/OS Versions 1.3 to 4.3 (and above). All mainframe environments require an IBM 3270 or plug-compatible personal computer, printer, disk and a magnetic tape unit. Content libraries are stored in VSAM files.

Can be installed by the customer or by Napersoft Professional Services staff on a fee basis.

Software (cartridge or tape) includes:

- Object code
- Sample JCL
- Sample CICS entries
- Sample VSAM defines
- Sample user exits

Documentation includes:

- Napersoft zCCM Merge 5.2 for z/OS User Guide
- Napersoft zCCM Word/Merge/Doc 5.2 for z/OS Programming Guide
- Napersoft for z/OS Installation Guide

Printers Supported:

Napersoft zDemand360 products output the major print streams that work with laser, impact, ink-jet and other on-line and batch printers, including:

- AFPDS using PSF Release 2.0 and above
- PCL
- DJDE
- Line Print

In addition, a customizable printer driver technology is available to support any print stream required.

Napersoft zCCM Merge 5.2 for z/OS requires the following product:

- Napersoft zCCM Word 5.2 for z/OS
