

Napersoft zCCM Word 5.2 for Word Processing

Key Benefits

- Produces high quality content that combines text, fonts, forms, logos and signatures
- Allows use of existing hardware (CPUs, terminals, printers, disk/tape drives)
- Enables use of printers across the network (centralized/decentralized, high or slow speed, impact/laser/ink-jet)
- Provides robust control and management of corporate content (with a broad selection of security options, scheduled back-up, and more)
- Menu driven or full 'PF' function key support
- WYSIWYG editor
- Extensive content formatting support
- Printing support

Overview

Napersoft Word 5.2 is a customer communications management word processor for the enterprise. It enables you to create and manage on demand content including text, paragraphs, fonts, forms and signatures.

An on-line, menu-driven, full function word processing software package that runs on your IBM z/OS or plug-compatible zSeries mainframe computer with 3270 terminals and/or plug compatible personal computer, Napersoft Word gives you word processing features commonly available on PC word processors. You also have the added power from a mainframe.

Napersoft zCCM Word 5.2 for Word Processing

Functionality Overview

Napersoft zCCM Word 5.2 helps you create, file, retrieve, revise, distribute and print a wide range of on demand content personalization communications in a wide variety of styles.

zCCM products operate on IBM z/OS Versions 1.1 to 1.11 (and above) zSeries mainframe and plug-compatible computers. On-line products also require CICS Transaction Server for z/OS Versions 1.3 to 4.3 (and above). All mainframe environments require an IBM 3270 or plug-compatible personal computer, printer, disk and a magnetic tape unit. Content libraries are stored in VSAM files.

Can be installed by the customer or by Napersoft Professional Services staff on a fee basis.

Software (cartridge or tape) includes:

- Object code
- Sample JCL and sample CICS entries
- Sample VSAM defines and sample documents

Documentation includes:

- Napersoft zCCM Word/Merge/Doc 5.2 for z/OS User Guide
- Napersoft for z/OS Installation Guide

Printers Supported:

Napersoft zDemand360 products output the major print streams that work with laser, impact, ink-jet and other on-line and batch printers, including:

- AFPDS using PSF Release 2.0 and above
- PCL
- DJDE
- Line Print

In addition, a customizable printer driver technology is available to support any print stream required.

Napersoft zCCM Word 5.2 for z/OS works with the following products:

- Napersoft zCCM Merge 5.2 for z/OS
- Napersoft zCCM Doc 5.2 for z/OS
- Napersoft zCCM BatchMerge 5.2 for z/OS
- Napersoft zCCM Spell 5.2 for z/OS
